

The China Directory 2022

The most powerful, influential and gifted men and women throughout China!

The People's Republic of China greeted its 70th anniversary on October 1, 2019. On that occasion it can boast the following achievements: From being one of the poorest countries in the world in 1949, China is now one of the largest contributors to international growth. It holds around 4 trillion dollars in foreign exchange reserves. It is not only the second largest economy in the world but also among the largest trading partners of the majority of countries in the world. The words 'Made in China' have become household terms.

The living standards of the Chinese people have been improving year by year. According to a report released by the China's State Council Leading Group Office of Poverty Alleviation and Development, the Chinese government successfully managed to lift around 68 million people out of poverty in the last five years and 600 million in the last 30 years. Another prominent example of the strength of the Chinese economy today is the launch of the Belt and Road Initiative (BRI). China is presently a global power, with its remarkable economic growth is also facilitating vigorous economic modernization.

The China Directory has been compiled from the personnel standpoint with the growing importance of conditions surrounding China in international society. This edition contains all the latest personnel appointments and we present it in the hope that it will contribute to research on China and to an increased understanding of the nation.
